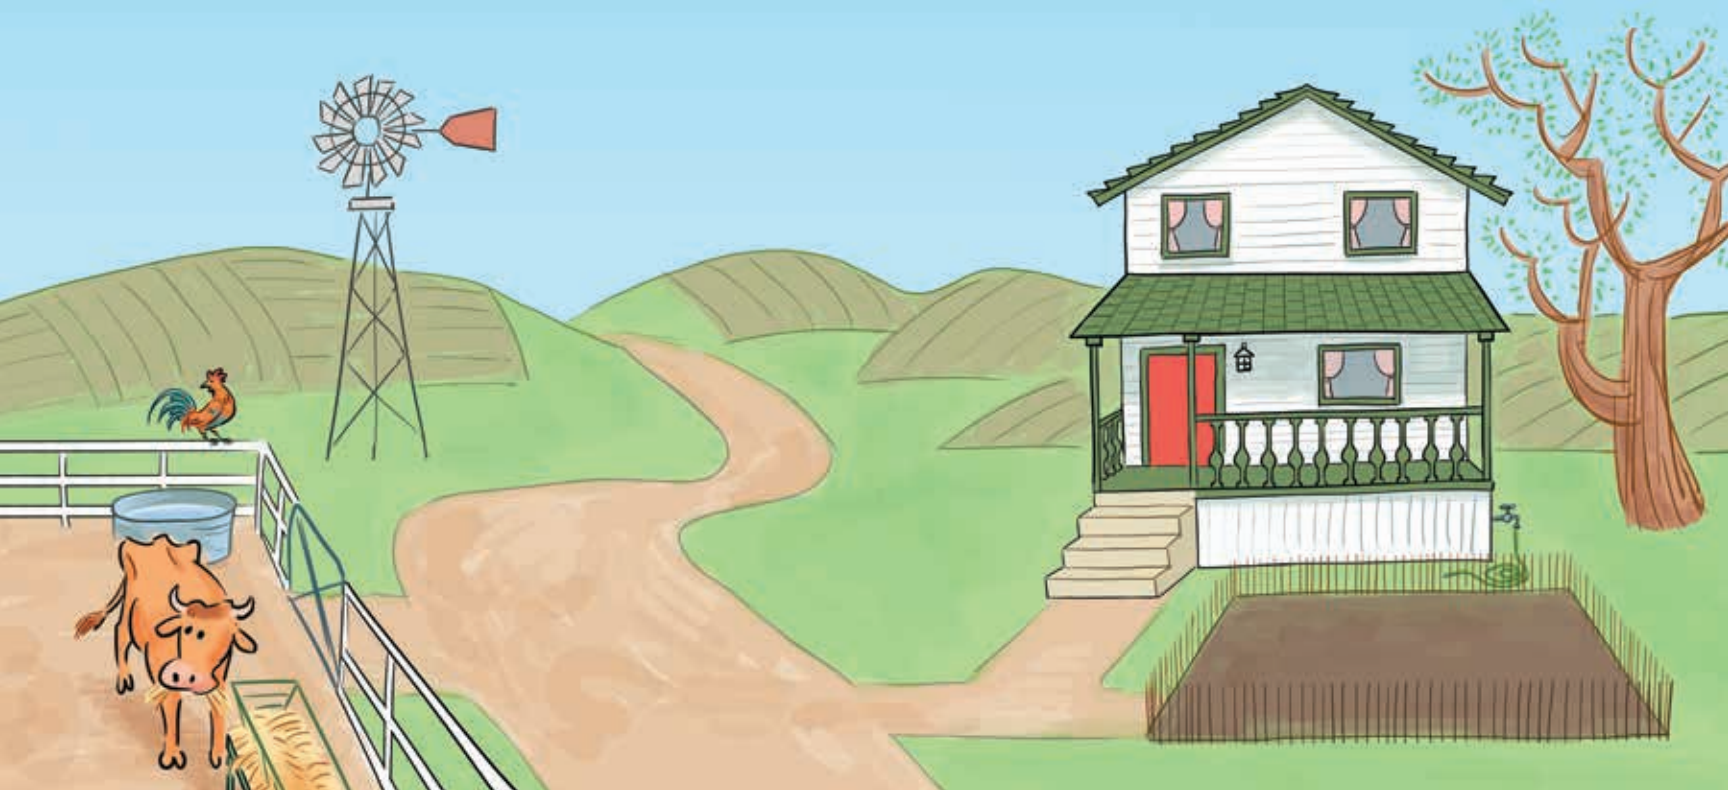
Winter is over. It is warm outside. It is spring on the farm.

© Center for the Collaborative Classroom

The farmer has a lot of work to do. He has many live animals and plants on his farm.

© Center for the Collaborative Classroom



He needs to give them food and water.
They need food and water to live.

© Center for the Collaborative Classroom

The farmer steps into the garden. He plants seeds in the dirt. The farmer will give the seeds water.

Seeds need water to turn into plants. Plants need water to live.

© Center for the Collaborative Classroom

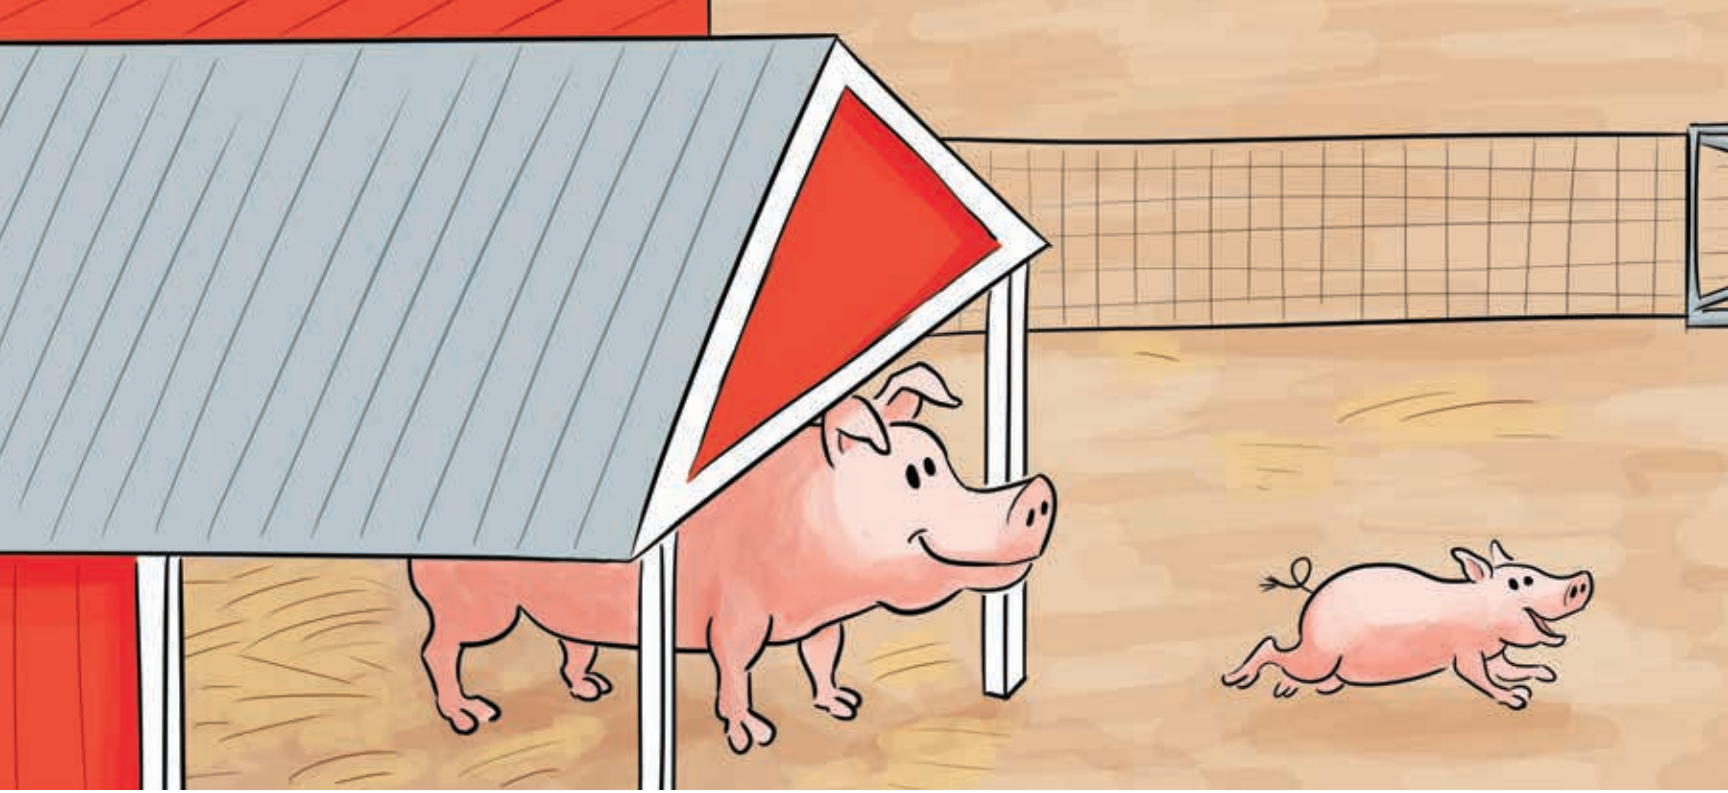
The farmer steps inside the barn. The hen has many chicks. They hatched from her eggs.

The farmer gives the chicks food. Chicks need food and water to live.

© Center for the Collaborative Classroom

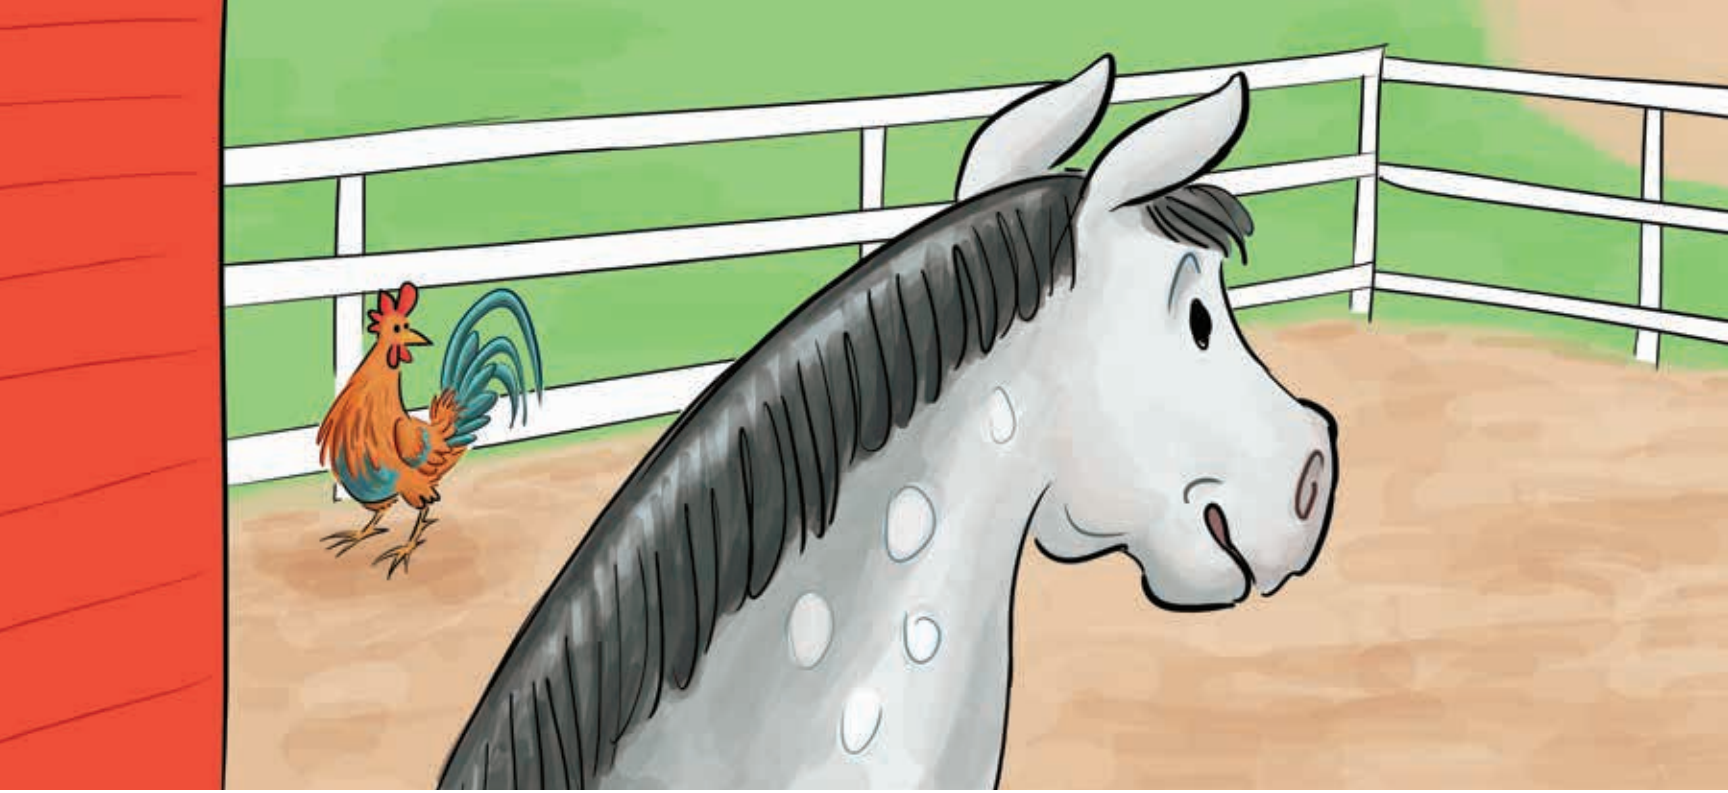


The farmer steps inside the barnyard.
The pig has piglets.

© Center for the Collaborative Classroom

The farmer gives them food, too. Piglets need food and water to live.

© Center for the Collaborative Classroom

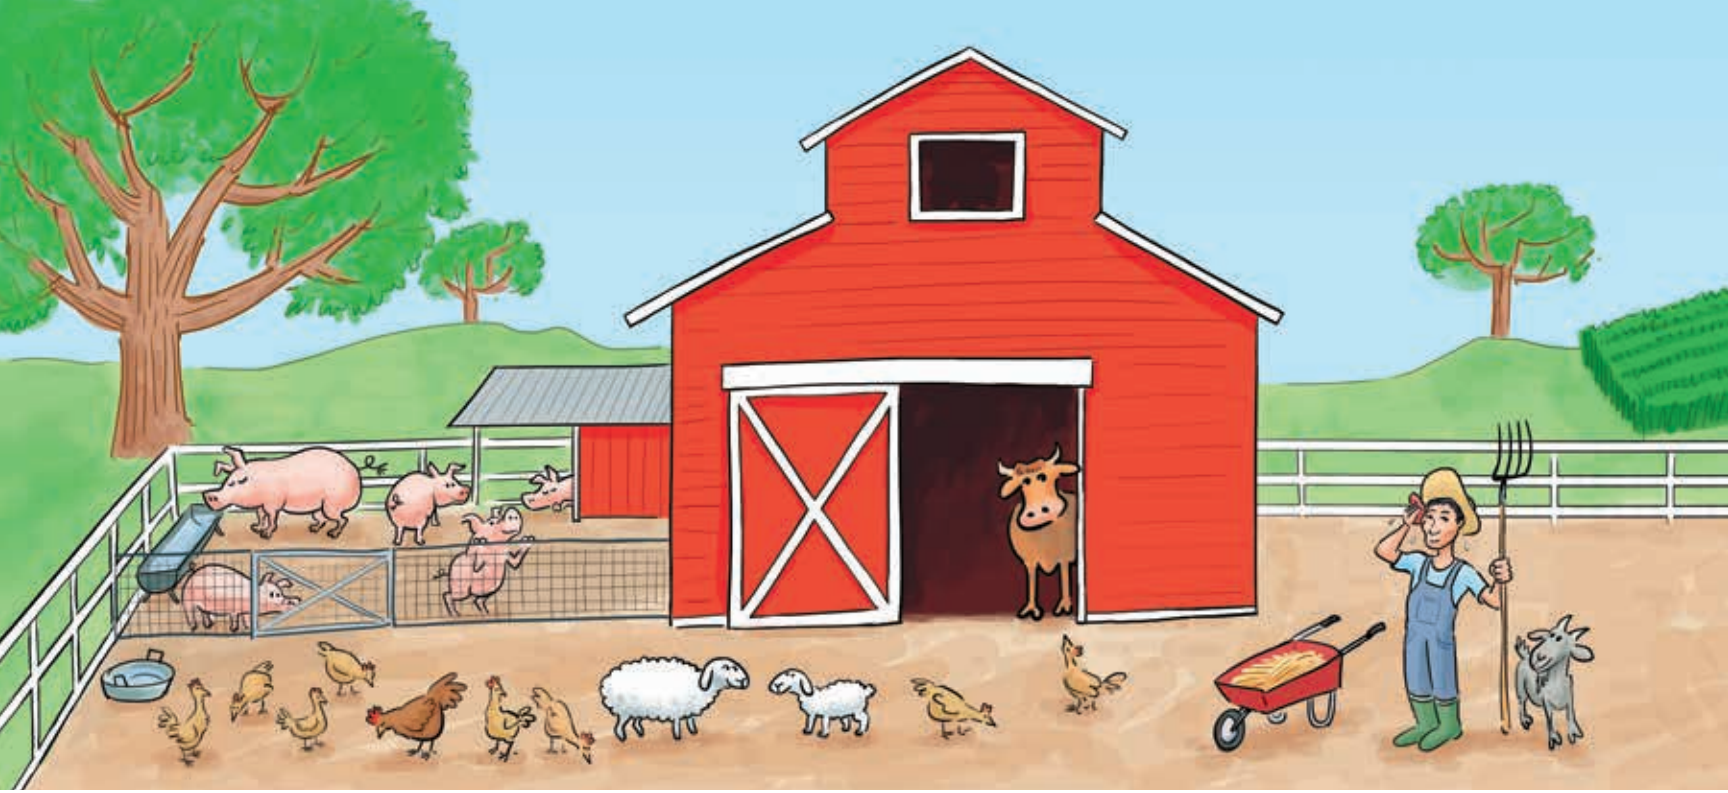


The farmer works and works. He has many other live animals.

© Center for the Collaborative Classroom

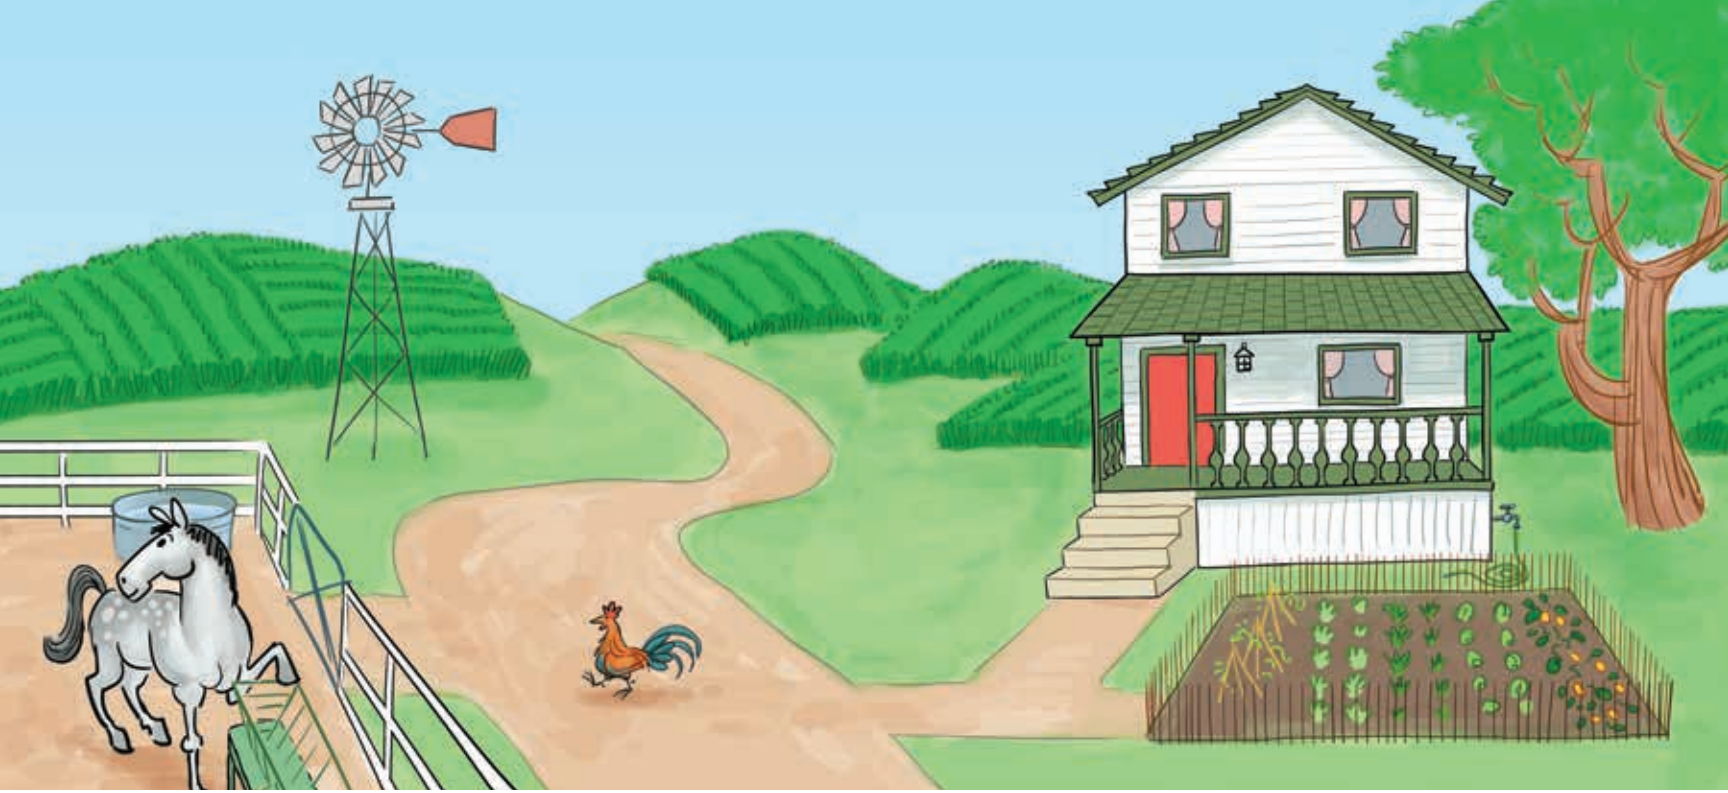
He has to give them food and water,
too. They need food and water to live.

© Center for the Collaborative Classroom



The spring days will get hotter and hotter.

© Center for the Collaborative Classroom



The plants will get bigger and bigger.
The animals will get bigger, too.

© Center for the Collaborative Classroom

Summer will come after spring. In summer, the plants and animals will be big. But they will still need food and water to live. The farmer will still have a lot of work to do.
